## Prices Survey 2011

Thanks to all who submitted returns for the Prices Survey. We are now pleased to publish the results. As previously, we have shown the highest fee charged and the lowest fee charged but to arrive at the Mean, we have removed these figures and then calculated an average of the remainder. This helps to ensure that the Mean is not skewed by any unrealistically high or low figure due to exceptional circumstances. We have also split these into Mean Averages for City and Town, which should help you to compare where you currently stand.
